

## ***Recent Project Documentation Requests***

This is a list of requests for project documentation issued to bases. Project documentation is used to define requirements on a room by room level of detail and is the first step toward designing a project. Project documentation is traditionally accomplished inhouse. In some cases an AE is retained to accomplish it. Project documentation is normally reviewed by ANG/CEC and the next step is to authorize AE services for advanced planning or design. Point of contact for this list is Hal Brazelton. Hal.Brazelton@ang.af.mil

<b><i>St</i></b>	<b><i>Base</i></b>	<b><i>Title</i></b>	<b><i>PDRrequest</i></b>	<b><i>Status</i></b>
------------------	--------------------	---------------------	--------------------------	----------------------

The magnitude of construction for these projects is between \$5,000,000 and \$10,000,000

WI	Volk Field	Replace Troop Training Quarters	8/15/2005	DSG	2
